

FPEAC WEBINAR SERIES

with presenters from U.S. EPA Region 4 – Atlanta, Georgia

The Food Processing Environmental Assistance Center (FPEAC) is committed to developing and promoting innovative strategies that achieve better environmental results, reduce costs, and promote environmental stewardship throughout the food processing industry. Our goal is to provide environmental information, resources, and training to small and medium-sized food processors in achieving environmental compliance and stewardship. The focus of this webinar series is to provide knowledge and information to food processors in regard to federal environmental compliance and regulations under the

United States Environmental Protection Agency (EPA). Topic areas are presented under the federal laws—including Clean Water Act (CWA), Clean Air Act (CAA), and Emergency Planning and Right-to-Know Act (EPCRA)—and how these laws pertain to the food industry and processors.

All webinar sessions are from 1-3 p.m. (Eastern Daylight Time), with a 30-60 minute presentation and up to 60 minute question and answer period. Webinar sessions will be available to registrants for review 48 hours after the live session at no additional charge.

SESSION TOPICS AND DATES

Emergency Planning and Community Right to Know Act (EPCRA) and Risk Management Plans, Tuesday, January 24, 1-3 p.m.

- What is EPCRA and how does it apply to the food industry?
- How can EPCRA be utilized fully by food processors?
- Risk Management Plans as they relate to the food industry
- How can Risk Management plans best serve food processors?

Presented by: **Karl Wilson**, Environmental Engineer, EPCRA enforcement section of Air, Pesticides, and Toxics Management Division, U.S. EPA Region 4 (Atlanta, GA) and **Deanne Grant**, Environmental Scientist, EPCRA enforcement section of Air, Pesticides, and Toxics Management Division, U.S. EPA Region 4 (Atlanta, GA)

Clean Water Act (CWA): Stormwater Management and National Pollutant Discharge Elimination System (NPDES) Permitting, Tuesday, January 31, 1-3 p.m.

- NPDES Stormwater requirements for the food industry
- When is a NPDES permit required?
- Effluent guidelines for food processors
- How pollutant limits are determined

Presented by: **Mike Mitchell**, Environmental Scientist, U.S. EPA Region 4 (Atlanta, GA) and **Marshall Hyatt**, Environmental Scientist, CWA enforcement section of water quality-based toxics control, U.S. EPA Region 4 (Atlanta, GA)

Clean Air Act (CAA): Section 608—Stratospheric Ozone and the Energy Star Program for Industry, Tuesday, February 14, 1-3 p.m.

- What is Section 608 and how does it apply to the food industry?
- Guidelines and pollutants that contribute as ozone-depleting substances (ODS)
- Energy Star and how it relates to the food processing industry and ISO certification
- Guidance for developing strong energy management programs
- The Energy Star Challenge: What it is and how your company can benefit from it

Presented by: **Chetan Gala**, Environmental Scientist, South Air Enforcement Section of the Air and EPCRA Enforcement Branch, U.S. EPA Region 4 (Atlanta, GA) and **Jason McDonald**, Environmental Engineer, Energy Star and Greenhouse Gases, U.S. EPA Region 4 (Atlanta, GA)

REGISTRATION INFORMATION

The registration fee is \$40 per live webinar session, or \$100 for participation in all three sessions.

For those who cannot attend the webinar, recorded sessions will be made available at the same fee as the live sessions (and free after two years). Visit www.conf.purdue.edu/fpeac.

For more information about registration, contact: Kim Stockment, conference coordinator, at 765-494-7225 or e-mail kstockme@purdue.edu
